June's Book Club Read

Mon June 19 4:15 pm

After Tova Sullivan's husband died, she began working the night shift at the Sowell Bay Aquarium, mopping floors and tidying up. Tova becomes acquainted with curmudgeonly Marcellus, a giant Pacific octopus living at the aquarium. Marcellus knows more than anyone can imagine but wouldn't dream of lifting one of his eight arms for his human captors - until he forms a remarkable friendship with Tova.

Shelby Van Pelt's debut novel is a gentle reminder that sometimes taking a hard look at the past can help uncover a future that once felt impossible.
